

**MAJOR BENEFITS FROM YOUR FINANCIAL & MEMBERSHIP SUPPORT  
INVOLVEMENT AS A MINING COMPANY, MINER OR CLAIM OWNER  
JOIN “MMAC”  
“DO YOU HAVE SKIN IN THE GAME?”**

- MMAC Advisors and Administrators (over 62 and counting) who have donated their time, money and efforts (forgoing their businesses for 2 + years) to help the real bona fide miner in 19 states restaffing mining district lands for mining use, opening up closures and reversing land designations harmful to the miner and the public’s national security needs.
- MMAC recognition as the first Minerals and Mining organization to have proven repeatable SOLUTIONS dealing with over-regulation at the county, state, and federal levels WITHOUT COSTLY AND TIME CONSUMING LITIGATION.
- MMAC being the exclusive U.S. Grass Roots Constituency for Mining Districts with national consistency recognized in Washington DC.
- MMAC being the first U.S. Mining District support organization for the purpose of effective modernization and recognition of traditional Mining Districts.
- MMAC providing the only U.S. Mining District constituency that is recognized by Washington DC and that have been previously accepted by the State governments.
- MMAC legal team expertise to Congressional representatives for moving legislation in all Senate and House subcommittees.
- MMAC involvement and assistance in successful reversals of previous land designations.
- MMAC involvement and assistance with the reversal of previous court decisions on land closures (due to sweet heart sue and settle environmental litigants) harmful to mining companies and the miner.
- MMAC fostering national Memorandum’s of Understanding’s (MOU’s) between MMAC Assisted Mining Districts, BLM and Forestry clearly defining each group’s power and jurisdictional limits.
- MMAC has been recognized for its strength, decision-making and the ability to teach arbitration/due process.
- MMAC should be ready to help you litigate your case in the future with your financial help.
- The ability to be a part of a fast growing and soon to be large well recognized constituency, which has power as a federal land stakeholder.
- MMAC offers one of the best teams and value added services in the United States with representation in geology, sedimentology, biology, environmental, reclamation, mining laws, federal laws, engineering, mining contracting, equipment manufacturing, refining, testifying in front of Congress and writers of Congressional bills and amendments.
- Representation of your mining district and your mining claims on Government Informational Systems (GIS) maps and overlays presented to three (3) Washington DC Committees. What are these GIS maps good for? To document missing data required under the Federal Land Management & Policy Act of 1976 and to give these updated overlays to the committees in order to correct current and future land designations so that mining districts and mining claim (deposits) are removed or excluded from newer non-compatible land designations.
- Regular continuing educational classes and updates at the mining district or group request.

1

- Guidance through MMAC successes that no other club, mining rights group or organizations have ever provided, to the mining district, and the miner.
- And finally, under MMAC's assistance, approximately 5,500,000 acres (8,700 square miles) within the in 8 months, is under MMAC Assisted Mining District control for multiple use and for free and open use principles. What other group, mining rights organization or association can say that? This is your chance to be excluded from harmful land designations, to have federal lands opened up from gated closures and to be free from oppressive over-regulation and most importantly, local representative governance consistent with the framers of the U.S. Constitution.

**NO OTHER MINING ORGANIZATION HAS EVER DONE THIS BEFORE – AND ALL OF THIS HAS BEEN ACCOMPLISHED BY DEDICATED “MMAC” PEOPLE WITHOUT EXPENSIVE LITIGATION OR NEW ENACTMENTS OF CONGRESSIONAL LAW**

*Your fees, dues and contributions may give you a Constituency Relationship that can change the laws on behalf of federal land (Public Land) stakeholders and users in a very major way.* MMAC and you, can be a Official National Minerals and Mining Representative. The individual, Mining District, and MMAC marriage is to show unification, national consistency and a constituency to federal, state and local agencies. Without this the miner and mining districts are on their own to fight federal, state and local obstacles that will come along, including new state laws, closures, land designations, etc. Acting separately, mining districts or the individual, on his own as we all know, does not and has not worked in any state. Also without this marriage of MMAC and the individual, the miner and mining district could not be federally recognized as one large unified national constituency to rally our elected officials when needed in Washington D.C.

State maps with MMAC Assisted Mining District overlays will be turned into Washington DC Committees at their request, which will be part of the national repository. This will be reflected at the federal and state government levels, which would be giving the MMAC Assisted Mining Districts and mining claims in those mining districts a chance to be pulled out of new and old land designations like Areas of Critical Environmental Concerns (ACEC's), Wildlife Management Areas (WMA's), National Landscape Conservation Systems (NLCS's), Wilderness areas, Monuments and reset many post year 1955 state and federal law enforcement plans.

With MMAC's known aim in forming national consistency between mining districts, a national Memorandum of Understanding(s) (MOU's) with the Bureau of Land Management (BLM) or the United States Forest Service (USFS), will be a strong possibility - as well as passage of the MMAC DRAFT Bills and Amendments pending in the U.S. Congress. This should allow the miners to actually mine again without the need for multiple federal, state and county regulatory permits, that for most independent miners are unavailable. MMAC is the only organization qualified or even close to accomplishing this ongoing and monumental task.

The financial support to MMAC from the collective mining districts and miners will allow for representation at the federal level, necessary legal research, advice, guidelines, templates, GIS mapping of mining districts, GIS mapping of metals, minerals, rare-earths and microbials and all the other benefits listed above.

For everything listed, you the miner, in a MMAC Assisted Mining District<sup>sm</sup>, can be a part of something Very Big and to be proud to have some major skin in the game ready to change the game and reset the federal lands management back when Man was part of nature rather than being excluded from it.

**DONATE TODAY**

Thank You  
MMAC
