

Why Join MMAC?

Where do you think you would be today had MMAC not come along? There would be no one out there fighting for your rights offensively as well as defensively and at a federal level bringing the mining districts into organization and modernization to help everyone concerned with road closures, mineral withdrawals, land designations and over - regulation.

Could there have been other organizations looking out for your rights as mining districts and doing what MMAC has done? YES! Have they? NO!

These other groups do not understand the whole concept of Mining Districts, and are so far, unwilling to inquire with MMAC experts to correct some odd notions they have circulated. These few small groups are willing to take your money, but be aware of these imitators who claim to know how to set up and run a Mining District or disregard the mining district power.

Simply, those individuals that take on a drive by basic inquiry of Mining Districts does not qualify them for teaching the advanced courses of the power, the running and limitations of a Mining District. Several of these so-called mining groups are being very divisive in disinformation in order that they not lose their own membership. We at MMAC do not advocate abandoning your existing memberships, but rather, encourage the support of MMAC and your local Mining District in order to help existing organizations become more effective.

Who Is MMAC?

MMAC started off as a private educational entity, assisted for two years as a project under Public Lands for the People with volunteers who put their businesses and lives aside, paid tens of thousands of dollars for everything out of their own pockets, brought together the best expert minds on the subject of mining districts, mineral and environmental law, Congressional and military representation, organization structure consistent with the U.S. Constitution and local governance. Now it has evolved into a taxable LLC.

MMAC cared enough to make the case for our rights as mining districts and miners and our committed MMAC members

are insuring we stay in the fight offensively at the federal level to make immediate changes nationally that will be administered locally through representative elective governance – where the locals can govern land management. Only MMAC experts can guide the miner through the complex maze to achieve this.

As we all know you can rarely get anything done that matters at the state level because the city voter base wipes out the needs of the rural voter base especially in California and as expressed in the State of Jefferson movement. MMAC has been working tirelessly for two (2) years, at great personal time and expense. MMAC Advisors and founders have formed bonds with agencies, politicians, organizations, committees and other user groups to ensure that miners and mining districts win and you get to use public lands as they were intended by Congressional Law and our forefathers.

MMAC in this short period of time has already had many successes that the miner and others, have benefited from at no expense to you. It's time for you to **GET SOME SKIN IN THE GAME!**

The Founders of the United States aren't here to fight to keep our rights, now it's OUR TURN to step up for our kids and grandkids. This is your fight whether you like it or not. Doesn't it make sense to join and support others who are taking their time to protect your rights and opportunities? MMAC is the leader in protecting your rights for MULTIPLE USE on Public Land through Mining Districts and the Grass Roots Unification Under One Large Federally Recognized Constituency. Help equip MMAC who has been and is in the trenches fighting for you. Give MMAC the resources they need to keep winning back our public land, mining, mining district and multiple-use rights. Help protect that right for yourself, family, friends, and future generations.

Contribute \$30.00 or more and stand tall with MMAC! BECOME A MMAC MEMBER TODAY!

What Does MMAC Do For You?

MMAC has several Bills and an Amendment drafted and is currently working with Legislative Counsels in Washington DC to have completed and ready for vote for 2017. Everything must be turned in by December 1st 2016. **THIS IS THE FIRST TIME MMAC is asking FOR YOU TO HAVE SKIN IN THE GAME.**

Without you, the MMAC member's contributions/investment, toward our battles for you, our fight, would not be able to be completed. **MMAC has already proven itself with many WINS across the United States on many levels. MMAC put it's money where it's mouth was first, before asking for your help.**

MMAC has already won with:

- MMAC Advisors (over 48) donating their time, money and efforts forgoing their businesses for 2 years to help the real miner.
- MMAC being recognized as the first Minerals and Mining organization to have proven SOLUTIONS regarding over-regulation at county, state and the federal levels.
- MMAC being the first currently recognized organization in Washington DC as a U.S. Grass Roots Constituency for Mining Districts.
- The first U.S. Mining District support organization for modernization and recognition of Mining Districts.
- U.S. Mining District consistency that is recognized by Washington DC down to state levels. (Insuring MOU's)
- Congressional representatives asking for MMAC's help on several levels.
- Reversal of land designations.
- Reversal of court cases harmful to the miner.
- Memorandum of Understanding's (MOU's) between mining districts BLM and Forestry.
- Recognition of strength, decision-making and the ability to arbitrate certain decisions.
- MMAC should be ready to litigate cases in the future with your help.

What Can You Do for Yourself and MMAC?

- Financially support MMAC.
- Volunteer and become a MMAC Administrator.
- Correct Education of the benefits of the mining districts and the need for the U.S to have a secure domestic supply of minerals and metals for our National Security
- Help find maps needed for overlays for Congress to take harmful land designations off of mining districts
- Show unity between miners and groups
