

STARTING DATE 3/01/2016

Approximate square miles of federal land taken back by mining districts so far under MMAC assistance - [8,700 Square Miles](#)

Approximate acreage of federal land taken back by mining districts so far under MMAC assistance - [5,568,000 Acres](#)

By the time MMAC gets back to Washington DC on our lobbying campaign December 1<sup>st</sup> 2016, MMAC hopes to have at least 15,000,000 acres to negotiate with for the MMAC assisted mining districts and miners on their memorandum of understanding (MOU) between the agencies and MMAC assisted mining districts, the MMAC Bills, the MMAC Amendment between the MMAC members and the congressional committees. MMAC overlay maps are being prepared for the congressional committees GIS request for each state showing the MMAC assisted mining districts.

Mining Districts not affiliated with MMAC and Mining Districts that have not turned in their information are not included in these figures. Watch monthly for the Tremendous changes.
